Experience

Semester Project Development

Applied theoretical concepts from BSIT coursework to practical software solutions, including object-oriented programming, database design, and web application development.

- Built multiple semester-based projects with modern development tools.
- Collaborated on team projects, prepared technical presentations, and delivered working prototypes.
- Gained hands-on experience in debugging, testing, and version control using Git to ensure efficient and reliable project development workflows.

Projects

Transport System – University transport system for registration, routes, scheduling & admin control.

CGPA Calculator – GPA/CGPA calculator with simple responsive design.

Event Management System – Platform for event planning, registration & scheduling.

Portfolio Website – Personal website to showcase projects and skills.

Achievements

- Honhaar Scholarship recipient awarded by the Government of Punjab.
- Consistently maintained strong academic performance with a current CGPA of 3.77.
- Successfully delivered multiple academic and personal software development projects.
- Strengthened technical abilities through self-learning and emerging technology projects.

Leadership & Volunteer Experience

- Student Vice Leader – BSIT
- Represented students, supported communication with faculty, and helped organize departmental activities.
- Care Society Member
- Participated in community service and welfare activities.
- IT Society Volunteer
- Assisted in organizing tech events, workshops, and student engagement activities.
